Department of Transportation — Federal Aviation Administration

Supplemental Type Certificate*Number* SA1566NM

This certificate, issued to GAMAH Division
Stanley Aviation Corp.
2501 Dallas Street
Aurora, Colorado 80010

certifies that the change in the type design for the following product with the limitations and conditions therefor as specified hereon meets the airworthiness requirements of Part 25 of the Federal Aviation Regulations.

Original Product — Type Certificate Number A16WE

Make Boeing

Model 737, 100 Series, 200 Series
200 C Series

Description of Type Design Change:

Replacement of existing JT115 fuel couplings with JT175 fuel couplings. Refer to Stanley Aviation Drawing List No. 2039, dated June 15, 1983. There are 11 or 13 couplings per airplane, depending on installation of auxiliary tanks. The couplings may be replaced in any order desired.

Limitations and Conditions:

This approval should not be extended to other aircraft of this model on which other previously approved modifications are incorporated unless it is determined that the interrelationship between this change and any other previously approved modification will introduce no adverse effect upon the airworthiness of the airplane.

This certificate and the supporting data which is the basis for approval shall remain in effect until surrendered, suspended, revoked, or a termination date is otherwise established by the Administrator of the Federal Aviation Administration.

Date of application: May 20, 1983

Date reissued:

Date of issuance: October 4, 1983

Date amended:

By direction of the Administrator
